### Order for 10 Percent Rent Ceiling Boost Blocked by Truman

WASHINGTON, Jan. 29 (AP)-President Truman in a sudden last-minute action today killed an order for a 10 percent boost in rent ceilings and passed on the Congress the responsibility for any general increase.

The OPA, under instructions from the Office of Temporary Controls, had even gone so far as to prepare the increase order for the mimeograph room. Then a sudden "hold" order came just as newsmen were expecting the release

But at 5:15 p. m., OPA passed the word that there would be "No statement tonight."

Then Presidential Secretary Charles G. Ross hurriedly summoned newsmen to a conference. He said he had relayed to Mr. Truman a report that the President had approved a 10 percent raise in rents. The President told him in reply, Ross said, that he had not. Ross added:

The President's position is the same as he announced last week at a news conference: He feels the line ought to be held on rents, but that this is a matter for Congress. From a man who sat in on conferences between Mr. Truman and Maj. Gen. Philip B. Fleming, head of the office of Temporary Controls, came the statement that in these talks there was no mention of any

across-the-board rent increase. It was learned that the increa order was to have become effective As the leaks spread, President

Philip Murray of the CIO heard of the proposed order and tried to get in touch with Mr. Truman. Failing that, he sent him a letter protesting any increase. Fleming told reporters at the

White House last week that OPA regional directors have been instructed to liberalize ceilings when a landlord is suffering hardship. Ross said tonight that the

policy is to permit rent increases on an individual basis only, and where landlord hardship can be shown. OPA estimated that a 10 per-

#### YOUR HEALTH By HERMAN N. BUNDESEN, M. D.

WHEN the bronchi or tubes of the lungs become dilated or stretched, there is a tendency for infection to occur with the result that secretions collect in the air passages. This condition, known as bronchiectasis, is especially likely to affect older people.

According to Dr. Arthur M. Olsen of the Mayo Chnic, the best treatment for this condition is surgical. For example, if the dilated bronchi are all in one lobe or section of the lung, an operation may be performed and this part of the lung removed.

However, many patients who nave bronchiectasis cannot receive surgical treatment. Elderly patients often do not withstand the lung operation very well. Furthermore in many of them, the breathing is not normal, and others suffer from asthma which would make operation on the lung nazardous. Hence, these pa-

In helping to get rid of the secretions, various preparations may be given which will thin out the thick material. These include iodiaes and ammonium chloride. The breathing in of steam from a steam kettle may also be helpful. A method known as postural drainage may also be employed. This is done by having the patient lie for from 15 to 30 minutes with his head lower than his hips, such as over the edge of a bed.

The breathing in of a solution of penicillin in the form of a sprav would appear to be the best method for getting rid of miection. Dr. Olsen has found that such treatment produces a great reduction in the amount of sputum in about half of the cases. He has also tried a mixture of penicillin and streptomycin and has found that this also, gives excellent recarried out before operation on the lungs in those cases where it is found practical

### U. S. Mediation Failure,

### Graziano Feared Gangsters, Bettors,

NEW YORK, Jan. 29 (A)-Rocky Graziano, terror of the middleweights in the ring for the past two years, refused to tell who offered him a \$100,000 bribe because he apparently feared "gangsters and gamblers," District Attorney Frank S. Hogan said today.

Striking back at repeated statements by the fighter that the district attorney's office had twisted information he supplied in an allnight grilling the past Saturday, Hogan said he was certain the attempted bribe "wasn't as casual as Graziano lets on."

Tre district attorney broke the sensational ring scandal Monday with an announcement that Graziano had been offered the bribe to throw a fight scheduled for the past Dec. 27 with Ruben (Cowboy) Shank of Denver.

After Hogan's announcement, the knockout - specialist declared "they put words in my mouth" and "tried to make this thing sound like the real business." He added that he 'figured" the man who offered the bribe "was kidding" and denied that his back injury was faked.

Recent medical reports reveal that an amazing number of children (and grown-ups too) may be victims of Pin-Worms-often without suspecting what is wrong? And these pests, living inside the human body, can cause real distress.

So watch out for the warning signs that may mean Pin-Worms-especially the aggravating rectal itch. Get JAYNE'S P-W and follow the directions.

### News of the Day Told in Pictures

These pictures come from embattled Indo-China where the French are battling Viet Nam Nationalists. A suspected sniper, rounded up by the French authorities, makes a desperate oid for freedom as he is led from the building where he was questioned. In top photo, the nationalist tries to "leave" the French soldier who escorts him. A clutch at his hair stops him in his tracks. Bottom, a judo grip around sniper's jaw causes him to shriek in agony.

Four of the five Republican senators, who introduced a bill that would authorize an immediate 15 percent boost in rents and end rent controls on April 30, 1948, are shown studying the measure in Washington.
